PROFESSIONAL PROFILE

Project Manager with nearly 30 years of IT experience and a solid technical background in Data Warehouse and Oracle environments. Over 10 projects delivered with a strong on-time track record, managing teams of 3-7 people in multicultural, remote settings on projects valued in the €100K-€500K range. Hands-on expertise in planning, risk management, resource coordination and stakeholder engagement — developed through years of leading development, release and maintenance activities for clients in Banking, Telco, Insurance and Public Administration. Agile (Scrum) methodologies applied in day-to-day project management, backed by certified training. Deep technical background (DWH architecture, Oracle DBA, PL/SQL, ETL/ELT) that enables effective communication with development teams, realistic feasibility assessments and early identification of technical risks.
